CLASS PROPHECY 1980

This is Rosanna Rosanna Danna here with you live at uh . . . Oh year — Palisade High School, where going on at this very minute is the 20-year reunion of the unforgettable class of '80. Why do I say 'unforgettable'? Well, it seems that everyone in this class has made some sort of success in their lives.

Overhead you might notice the slight distraction of the Flying Ace Pilot — Sergeant DENISE GRABAST of the United States Air Force. She is most famous for her dynamic flight to Mars. Rumor has it that after the reunion, she is taking passengers to Saturn for a much needed recoupperating vacation. Tickets are for sale at the head office.

Exhibit number two comes to us straight from beautiful downtown Burbank, Palisade. As close to the Alma Mater as we will probably get. KAY DANIEL is the manager of the largest truck stop for miles around. Her business goes by the name — 'Diesel Dan's'. That's a very unusual name, Kay. How did you get to be the manager of such a fine facility? "Well, it started out as a family garage (that's the reason behind the name) and it kept growing and growing. Besides, I figured there had to be something better in life than inhaling diesel fumes. Heck, now I'm my own boss!"

DANNY KNOSP could — in so many words — be considered his own boss, also. He is the leader of the rock group — 'Why'. Danny, I know this is a strange question, but why 'Why'? "You see, it's like this — ". I see . . . maybe it's better if we don't know.

Oh my! Did someone let King Tut out of his pyramid, or is it just my eyes playing funny tricks on me? No — it's the famous Mummy-man LYLE BROWN. Tell me, Lyle, how did you get yourself into this mess? "M-m-m-m . . .". Oh, I see, Lyle is a stunt man for Hollywood and it appears he tripped over the model rocket during the filming of **Airport 2000.**

Lyle isn't alone in going Hollywood. It seems that DEON KEATING has also gone west. The most exhilarating role he has played was in the feature — **Moose;** the biggest box office hit since **Rocky Meets Jaws.** And that's not all — he's planning a spin-off T.V. series: **More Moose.** Of course, Deon wouldn't be where he is if it hadn't been for his wonderful director JEANNIE VRBAS, who says, "I never was too shy in high school; I'm good, so why not be the best? Besides, we never do have enough westerns so I made my own!".

Speaking of westerns, with us today is GUY RUNDBACK the rocket-ship cowboy. He is the sole designer of all moon-mission rockets and has his portrait on every rocket ship in the world. The artist for these special portraits is RANDY NELSON. Randy, how do you illustrate in such fine detail? "It's a special technique. I like variety in my work, so I draw while the rockets are in flight. It adds a bit of excitement with a touch of danger included."

When danger is mentioned, it immediately brings to my mind yet another of the P.H.S. alumni — CHERYL HUSTED. Cheryl is living very dangerously these days, for she has just recently taken over management of the Harlem Globetrotters. Cheryl never has any problems coaching these exquisite athletes: if they ever disagree, she just tells them to stuff it — which they usually do anyway!

Clear from the opposite side of the continent, decked out in Macy's finest, we have CONNIE LIGHT, the celebrated pianist. She has spent the last 20 years as an apprentice studying under Liberace. During an interview before tonight's program, Connie was quoted as saying, "Don't shoot me . . . I'm only the piano player."

Even farther away — all the way across the Atlantic Ocean, in fact — is MARJ LAWLESS, United States ambassador to Saudi Arabia. She also has her own limousine service — gas provided, which she has generously let us use for this special presentation. Marj, that's a mighty big offer. Why? "Well, since I live in Saudi Arabia — petrol grows in my back yard. I can spare a few barrels here and there."

One person who likes to burn his share of the precious liquid, and sometimes more than his share, is RONALD RIDLEN. He has won the Indianapolis 500 for the past five consecutive years. He also holds the World Cup for race car driving. That's a fancy car that you race, Ronald. Is it special? "Special? It's a custom built, 10.9 turbo exhaust engine under a 1998 model Formula Two. My ace mechanic MIKE SCHUTTE has slaved laboriously two years to complete it!" Looks like you did an excellent job on the car, Mike, but is it all as glamorous as Ronald has put it up to be? "No, quite the opposite. He was right when he said I slaved over it. I couldn't help it; but I did manage to get a few breaks every now and then when he tired of snapping the whip at me." Thank you, Mike.

Well, now you have it, the way it really is. But before I go on, I have one thing to say . . . don't believe a word I'm telling you because this is just another act from 'Saturday Night Live' with the all-new Not-Quite-Ready-For-Prime-Time Players — the P.H.S. class of 1980. This is Rosanna Rosanna Danna signing off, and remember — 'it's always something!'

This program was written and produced by LINDA BAXTER, the famous renouned television director. Protions of this show has been prerecorded.
